

To Whom It May Concern:

I just moved to St. Louis from Minneapolis, MN where I listened to K-love every day through a local repeater station there. Although K-Love was in California, I felt a close connection with the station and the programming it provides. Since we moved and I no longer have access to a local Klove station, I greatly miss it and have not been able to find a suitable replacement to it. I fear that if Stations like K-love are allowed to be replaced by LPFM stations, a far greater number of people will suffer the same loss I have. Translator service Stations like K-love provide for people like me the programming they love, and depend on.
